Experience

TD Bank (Hybrid) | New York, NY

November 2022 – Current

Software Engineer

- Refactored issues in Credit Link application, eliminating deprecated code and optimizing performance to improve overall system efficiency.
- Conducted thorough peer reviews of pull requests, ensuring adherence to coding standards and best practices.
- Improved code reliability by writing comprehensive unit test cases.
- Implemented UI redesign enhancements and worked with QA to resolve bugs.
- Set up monthly code upgrades, collaborating with the Application Release team, resulting in a reduction in system vulnerabilities.

TechStack: Java, Cloud Services, CI/CD Tools, Springboot, Git, Jira, Jenkins

Playbook Sports (Remote) | Hoboken, NJ

June 2021 – December 2021

Front End Developer

- Developed 25+ responsive websites using tech stack aligning with various themes based on Figma/designer-provided template mockups.
- Established robust website architectures tailored to client requirements for optimal user experience.
- Addressed content issues promptly, integrated additional features, and worked with cross-functional teams to foster client brand visibility.
- Contributed to developing an intuitive user interface for the company website.

TechStack: HTML, CSS, JavaScript, Bootstrap, WordPress, Web Components, Figma

Montclair State University | Montclair, NJ

September 2018 – May 2020

IT Service Desk Technician

- Provided Windows and Mac OS technical support, resolving faculty, staff, and student issues through various channels.
- Utilized service desk tracking software proficiently to create, update, escalate and close incidents.
- Executed emergency escalation protocol during system-wide outages, minimizing downtime.
- Assisted in loaning out equipment and software adhering to procedures.
